

## Timing diagram for North Penn

All units will enter the floor from the Back LEFT and exit to the Front RIGHT as viewed from the spectator side. Upon entering the floor each unit will be able to use the entire left quadrant (side one as viewed from spectators) for set up prior to total “show time” starting. Timing will start when equipment crosses the center line to side two (side two as viewed from spectators). Mats should be folded accordingly.

After completing the performance, the vertical center timeline shall determine groups timing stopping when all *equipment and personnel* are to the right quadrant (side 2) of the vertical center timeline. After your performance, please exit the performance area promptly. The timing and penalty judge will help facilitate this procedure.

Should you have any questions or clarification regarding this procedure please contact Tom Kelly @ 215-840-0816. Do not wait until the day of the show for clarification.

**Total available floor 80 X 112 ft.**

**NO FLASH PHOTOGRAPHY DURING UNIT PERFORMANCES.  
PLEASE ADVISE STAFF, PARENTS, AND CREW**
